As an aspiring programmer, I have completed Level 1 and Level 2 of ICT systems and principles for IT professionals, and I am currently pursuing my Full Stack Level 3 certification. Proficient in Python, HTML, CSS, and Django, with limited exposure to Java, JavaScript, SQL, PHP, and AWS but a strong desire to expand my skills in these languages and more others. I bring a strong passion for technology, a quick learning ability, and a dedication to staying up-to-date with emerging trends. With a keen eye for detail and a commitment to delivering high-quality work, I quickly grasp new concepts and strive for excellence. Seeking opportunities in the tech industry to gain hands-on experience, contribute to innovative projects, and continue my professional growth in the field.
